CONSTRUCTION

ABOUT US

CMG is a leading integrated service provider in Egypt, specializing in:

- Facility Management
- General & Technical Maintenance
- Professional Cleaning Services
- General & Specialized Supplies

We act as a strategic partner for local and international companies, delivering reliable, high-quality services that ensure efficient operations and a safe, clean working environment.

With a highly trained team and advanced equipment, CMG is committed to meeting international standards and exceeding client expectations.

A.

CONSTRUCTION WORKS

At CMG Communications Marketing Group, we deliver high-quality construction works and concrete structures for residential and commercial buildings, from excavation and foundations to full structural execution. We adhere to the highest technical standards to ensure durable and reliable buildings, closely monitoring every phase of construction, including material quality, concrete pouring, reinforcement, and engineering supervision, to guarantee compliance with approved designs and specifications

B.

FINISHING WORKS

We provide comprehensive interior and exterior finishing services with exceptional quality, including surface preparation with putty and plaster, interior and exterior painting, flooring installation (ceramic, porcelain, marble, parquet), ceiling works and decorative suspended ceilings, facade finishes using paint, stone, or glass, as well as carpentry and custom wooden finishes. Every project is executed with attention to detail, high-quality materials, precise adherence to approved designs, and timely delivery, ensuring results that meet and exceed client expectations.

C.

MEP SERVICES

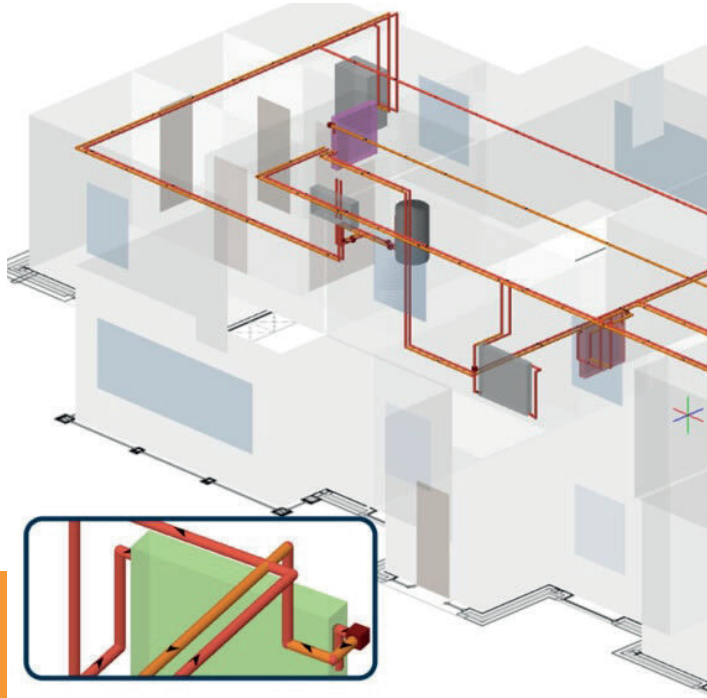

MEP
SERVICES

CMG specializes in the design and execution of integrated electrical and mechanical systems, including electrical installations, plumbing, HVAC, and fire protection systems. We ensure safe, reliable, and efficient operation of all building systems, using high-quality equipment according to international standards, providing comfortable and secure environments for residential, commercial, and specialized projects.

D.

INTERNAL NETWORKS

We design and implement internal networks for water supply, drainage, ventilation, and HVAC systems, ensuring optimal operational efficiency and ease of maintenance. Our approach guarantees smooth water flow, efficient sewage disposal, and effective heating and cooling systems, providing long-term sustainability and seamless integration within all building operations.

E.

PROJECT MANAGEMENT

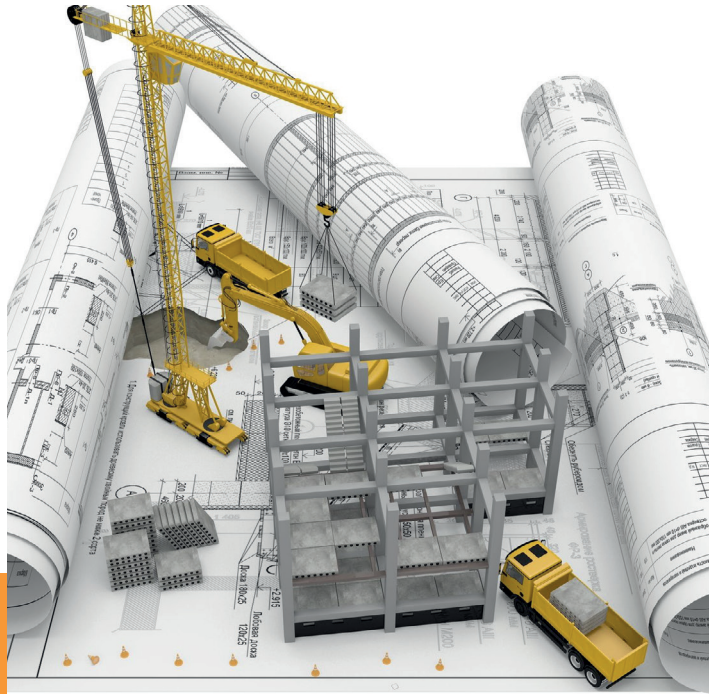

CMG offers comprehensive project management services, including planning, monitoring, and controlling all phases of execution to ensure projects are completed on time, within budget, and to the highest quality standards. We coordinate teams, manage resources efficiently, and oversee quality control at every stage to deliver successful outcomes that meet client expectations and project objectives.

F.

DESIGN & BUILD

We provide integrated design and build solutions, from accurate site surveys and 2D and 3D architectural plans to interior design, kitchen and bedroom design, dressing rooms, and custom furniture. Our process ensures seamless coordination between design and execution, flexibility to adjust to client requirements, and minimization of construction errors, resulting in precise, functional, and visually appealing final projects.

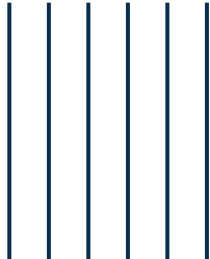

G.

SUPPLY SERVICES

CMG supplies all construction materials and equipment required for projects, including basic building materials, finishing materials, mechanical and electrical equipment. We ensure high-quality standards, timely delivery, and seamless integration with all stages of execution to maintain smooth project progress and support all teams efficiently.

H.

MAINTENANCE

We provide comprehensive post-delivery building maintenance services, including periodic inspections, troubleshooting, and continuous monitoring of all mechanical and electrical systems. Our approach ensures sustained building performance, rapid response to any issues, and long-term operational efficiency and durability.

ELECTRONIC SYSTEMS & NETWORKING

CMG specializes in the design, installation, and maintenance of electronic and networking systems, including CCTV security, internal communication systems, access control, IT networks, servers, and smart automation solutions for homes and offices. We provide fully integrated solutions to ensure security, reliable connectivity, operational efficiency, and seamless performance for residential and commercial clients.

J.

RESIDENTIAL PROJECTS

We design and execute fully integrated residential projects, including apartments and villas, covering interior design, construction, finishing, and all mechanical and electrical systems. Our work ensures comfortable, functional, and aesthetically appealing living spaces, adhering to technical specifications and delivering high-quality results that meet the needs of residents.

K.

ADMINISTRATIVE & OFFICE SPACES

CMG provides complete furnishing and setup services for administrative and office buildings, including furniture, partitions, technical systems, and operational facilities. We design efficient workspaces that are modern, functional, and tailored to optimize employee comfort, productivity, and workflow.

L.

SPECIALIZED PROJECTS

We handle specialized projects requiring advanced technical expertise, such as medical units, emergency facilities, and other installations with strict technical standards. Every project is executed in full compliance with engineering specifications to deliver reliable, high-quality, and safe outcomes.

M. TURNKEY SOLUTIONS (FULL FIT-OUT)

We manage the complete project cycle from design, execution, supply, furnishing, and fit-out to ensure projects are ready for immediate use. CMG coordinates all phases of the project to guarantee high-quality delivery, adherence to timelines, and a fully operational space that meets all client requirements.

N.

FACILITY MANAGEMENT & OPERATION

CMG provides comprehensive facility management and operational services post-handover, including continuous monitoring, regular maintenance, and management of all building systems. Our services ensure long-term operational efficiency, sustainability, and the highest quality of building performance for clients.
